# Lookuvi features at launch

What a salon gets on the first day. Each line is one function, with the moment it appears in the walkthrough.

## Customer

• A guest opens a welcome page with Join queue and Try a look. (part-00.mp4 0:00)

• Join queue on the welcome page opens the public queue. (part-00.mp4 0:07)

• The try-on home shows the salon name and Use photo. (part-00.mp4 0:14)

• The Women control filters the style photos. (part-00.mp4 0:21)

• The Men control filters the style photos. (part-00.mp4 0:28)

• The Kids control filters the style photos. (part-00.mp4 0:35)

• Women is the everyday style set. (part-00.mp4 0:42)

• The thin hair-type chip filters style photos. (part-00.mp4 0:49)

• The medium hair-type chip filters style photos. (part-00.mp4 0:56)

• The thick hair-type chip filters style photos. (part-00.mp4 1:04)

• The straight hair-type chip filters style photos. (part-00.mp4 1:11)

• The wavy hair-type chip filters style photos. (part-00.mp4 1:18)

• The curly hair-type chip filters style photos. (part-00.mp4 1:25)

• Show all lists every style photo, not only the hair-type match. (part-00.mp4 1:32)

• The Colour tab is a customer try-on tool. (part-00.mp4 1:39)

• The Brows tab is a customer try-on tool. (part-00.mp4 1:46)

• The Nails tab is a customer try-on tool. (part-00.mp4 1:53)

• The Beard tab is a customer try-on tool. (part-00.mp4 2:00)

• The Style tab is a customer try-on tool. (part-00.mp4 2:08)

• Use photo opens the age and photo notice before a file can be chosen. (part-00.mp4 2:15)

• With no AI key, a style tap shows a sample image on the try-on screen. (part-00.mp4 2:22)

• The result offers Save, a booking note, and Try another. (part-00.mp4 2:29)

• The public queue asks for a name, a mobile number, and STOP consent. (part-00.mp4 2:40)

• In request mode the guest picks a date and a time, and the salon must confirm. (part-00.mp4 2:48)

• An unknown salon link shows a not-found page. (part-00.mp4 2:55)

• A suspended salon tells the guest the salon is paused. (part-00.mp4 3:02)

• An expired trial tells the guest the trial ended. (part-00.mp4 3:09)

• A salon whose language is Hindi shows the photo button in Hindi and the Groom tab. (part-00.mp4 3:31)

• Groom has Looks and Your own look. (part-00.mp4 3:38)

• When bridal is on, the guest sees Bridal looks. (part-00.mp4 3:45)

• Bridal Your own look is a guest bridal control. (part-00.mp4 3:52)

• Bridal Mehendi is a guest bridal control. (part-00.mp4 3:59)

• Bridal My looks is a guest bridal control. (part-00.mp4 4:07)

• Bridal Looks is a guest bridal control. (part-00.mp4 4:14)

• The guest can try more than one bridal look in a visit. (part-00.mp4 6:08)

• Live capture opens the camera tray for kajal, lashes, blush, and brows. (part-00.mp4 6:15)

• Two different bridal looks can be tried in one visit. A sample does not spend a visit try. (part-00.mp4 6:22)

• A STOP reply shows as Replied STOP and reminders stay off. (part-00.mp4 7:47)

• A printed QR needs a public website address. This copy will not print a local code. (part-00.mp4 12:33)

• A paid provider image is not run. Samples do not spend a try-on. (part-00.mp4 12:53)

## Owner

• A wrong password stays on the sign-in screen. (part-00.mp4 4:22)

• The owner signs in and lands on the desk with try-ons left. (part-00.mp4 4:29)

• Onboarding walks brand, services, WhatsApp, languages, and finish. (part-00.mp4 4:35)

• With bridal and groom off, the desk hides recent visits. (part-00.mp4 4:43)

• Queue settings set chairs, minutes, the alert, and live or request mode. (part-00.mp4 4:49)

• The owner menu has Prices and does not have Styles. (part-00.mp4 4:57)

• With bridal off, Prices lists Haircut and not the Classic bridal package. (part-00.mp4 5:04)

• Each price row has a rupee field, an on/off switch, and a more menu. (part-00.mp4 5:11)

• The owner adds a service with a name and a rupee price. (part-00.mp4 5:18)

• Customers has add, CSV, reminder days, a monthly cap, an offer, and search. (part-00.mp4 5:25)

• Settings holds the salon name, WhatsApp, address, bridal, groom, and Save. (part-00.mp4 5:32)

• The owner can turn live colour, hairstyle, beard, and nails on or off. (part-00.mp4 5:39)

• Turning a tool back on puts its tab on the guest page. (part-00.mp4 5:47)

• Turning bridal on adds bridal packages and the guest Bridal tab. (part-00.mp4 5:54)

• A bridal package price is a small rupee field the owner can change. (part-00.mp4 6:01)

• The desk lists a visit code. Staff and the owner share Unlock, which adds another batch of tries. (part-00.mp4 6:29)

• Turning bridal off hides bridal packages and the guest Bridal tab. (part-00.mp4 6:36)

• The owner sees the team and can create a staff login. (part-00.mp4 6:43)

• Without a public website address, QR explains that instead of printing a code. (part-00.mp4 6:50)

• Annual billing is ten times the monthly price. (part-00.mp4 6:57)

• Choose shows a UPI QR and stays on Payment pending. (part-00.mp4 7:04)

• A try-on pack stays pending until someone marks the UPI reference paid. (part-00.mp4 7:11)

• Basic salons see that lead export is for Standard and Pro. (part-00.mp4 7:18)

• Owner security offers an authenticator when it is off. (part-00.mp4 7:25)

• Customers shows reminders, offers, WhatsApp used, and came back, plus a banner while WhatsApp is off. (part-00.mp4 7:32)

• The owner adds a customer with a phone and a name. (part-00.mp4 7:39)

• With bridal on, Prices shows Classic, Signature, and Royal. (part-00.mp4 7:54)

• With bridal on, Recent visits sits above the visit code. (part-00.mp4 8:01)

• Standard and Pro can download the lead CSV. (part-00.mp4 8:08)

• A suspended salon owner sees that guests cannot try on. (part-00.mp4 8:15)

• An expired trial owner sees that the trial ended. (part-00.mp4 8:22)

• After mark paid, the owner billing page has a receipt download. (part-00.mp4 11:14)

• A real UPI payment is not sent from this copy. The screen stops at Payment pending. (part-00.mp4 12:40)

• WhatsApp reminders stay paused until a Meta number is connected. (part-00.mp4 12:47)

## Staff

• Staff sign in to the same desk with the staff role. (part-00.mp4 8:28)

• Staff cannot change settings or prices. (part-00.mp4 8:35)

• Staff see prices locked, with an owner-only note. (part-00.mp4 8:42)

• Staff cannot change the plan. (part-00.mp4 8:51)

• Staff add a walk-in by name. (part-00.mp4 8:58)

• Staff confirm or decline a requested time. (part-00.mp4 9:05)

## Super admin

• Production super-admin sign-in asks for the authenticator code. (part-00.mp4 9:12)

• The platform home shows try-ons this month and try-ons left. (part-00.mp4 9:18)

• The salons table lists link, plan, status, try-ons left, and the no-key warning. (part-00.mp4 9:25)

• Search, plan, and status filters narrow the salons table. (part-00.mp4 9:33)

• Trial ending in 7 days lists only those trials. (part-00.mp4 9:40)

• Low try-ons left lists salons with 10 or fewer. (part-00.mp4 9:47)

• The status filter can show only expired salons. (part-00.mp4 9:54)

• Change plan sets the plan and does not add try-ons. (part-00.mp4 10:01)

• New salon starts a 14-day trial with 20 try-ons. (part-00.mp4 10:08)

• Suspend blocks the guest page. Resume opens it again. (part-00.mp4 10:15)

• AI settings are two rows, OpenAI and fal, each with Save and Test, plus the price list. (part-00.mp4 10:25)

• Spend and costs shows month spend, images, and average rupees per image. (part-00.mp4 10:32)

• Image costs are a separate log. (part-00.mp4 10:39)

• Styles are platform data. Each style has density and texture ticks and Save. (part-00.mp4 10:46)

• The audit log lists founder actions and can filter by action and salon. (part-00.mp4 10:53)

• Security says the authenticator is required in production and is on. (part-00.mp4 11:00)

• Mark paid records the UPI reference, activates the plan, adds try-ons, and makes a receipt. (part-00.mp4 11:07)

## Platform

• Terms say GST is not charged and a receipt is not a tax invoice. (part-00.mp4 3:16)

• Privacy explains the photo rules and offers an access request. (part-00.mp4 3:24)

• GST is off, so the download is a receipt, not a tax invoice. (part-00.mp4 13:00)

• Five guests can browse health, welcome, and the queue together. (part-00.mp4 13:07)

## Cross-screen

• A guest token appears on the guest ticket and the desk at the same time. (part-00.mp4 11:22)

• NEXT on the desk tells the guest it is their turn. (part-00.mp4 11:29)

• Start tells the guest they are being served. (part-00.mp4 11:36)

• Done tells the guest the visit is finished. (part-00.mp4 11:43)

• No-show tells that guest the token was a no-show. (part-00.mp4 11:50)

• Pausing the queue stops a new guest from joining. (part-00.mp4 11:57)

• A walk-in on one salon does not appear on another salon's desk. (part-00.mp4 12:04)

• A sample image does not spend a try-on when no AI key is saved. (part-00.mp4 12:13)

• Adjust try-ons changes the owner counter and the salons table together. (part-00.mp4 12:21)
